**Finally Reports Ministers are** Not at Tien-Tain.

lis Dispatch Adds to Depression Pre-uniting at the Capital.

Department this morning received the following: cablegram from Admiral Kempff:

"CHE FOO, June 9.—Secretary of Navy: Peking relief expedition now in Tien-Tsin with 200 sick and wounded. Ministers and Peking party not with them. No news from them.

[Signed] "KEMPFF."

The department also was advised this morning that Admiral Remey, on the Brooklyn, has arrived at Hongkong, en route to Taku. The Brooklyn will sall tomorrow for Taku, via Nagasaki.

Admiral Kempff today acknowledged the error he had made in reporting the presence of the foreign Ministers with Admiral Saymour's column, eight miles out from Tien-Tsin. His cablegram this morning admits that there is no knowledge of their whereabouts, and it is assumed the error in the first report arose from the admiral's acceptance of a rumor that was generally current at the time the cablegram was sent.

The fact that the admiral's toessage is dated at Che Foo today warrants the supposition has been restored between that

is dated at Che Foo today warrants the supposition that telegraphic communication has been restored between that point and Taku, where the foreign fleet lies. There is, however, a possibility that the admiral could get a dispatch across from Taku to Che Foo on the same date by pushing the Yorktown, which has been used as a dispatch boat. Admiral Kempf's news has added to the depression in official quarters.

Admiral Remey is pushing the Brooklyn with all dispatch toward Taku, and he cables that he will sail from Hongkong northward tomorrow. His main care will be to arrive at Taku from Hongkong northward tomorrow. His main care will be to arrive at Taku with full coal bunkers, thus making sure that the Brooklyn will be ready for any service that may be reguired when she reaches that port. Hence his announced purpose to stop at Nagasaki, Japan. The stop there also will enable the Navy Department to change his orders by direct cable communication, in case the conditions change during the Brooklyn's five-days run to Nagasaki so as to make it necessary to do so, This port is scarcely out of the route between Hongkong and Taku, so here will be pracically no loss of time involved in entering Nagasaki.

No news from any of the American State Department officials in China was received today. NEW YORK, June 25.—In his letter, Dr. Vandenburg says:

"Lately, the thieves just below here have been robbing and pillaging, and they took one boy, about 15 years old, up in the hills, fifteen miles from here, and held him until 3300 had been paid, a very large sum for these people. The Christiang in a village called Slak Bay, not far below here, have been here with tears in their eyes, to send them rifies, but as it is against the treaty, I believe we will have to refuse them. The people have built a square fort, two stories, of mud bricks, so as to be able to keep thieves away from their gates."

Rev. Dr. Arthur J. Brown, one of the secretaries of the Presbyterian board, today sent the following cable to the Rev. W. O. Elterich, secretary of the mission at Che Foo: "Spare no expense to save Presbyterian missionaries."

Dr. Brown also cabled Rev. George F. Fitch at Shanghai as follows: "Order Kuling missionaries to port. Cable particulars. Where is Morris?"

Kuling is a mountain town, forty-five miles up the Yang-Tse River and fiven miles from the river. The steamers on the Yang-Tse are run by foreigners, but there are Chinese forts all along the river, and if trouble should extend down to that river, the missionaries at Kuling would be cut off from the civilised world entirely. The Morris peferred to is the Rev. Dr. Morris. He is supposed to be at Kuling, as are two medical missionaries, Drs. Samuel Cochran and Mrs. Boyd were also there at last accounts.

The allegations as to neglect of the sick and wounded were frankly admitted to be true to a lamentable extent. The disabled were exposed, he said, to terrible hardships, but it was not due to any shortage of supplies but to the insuperable difficulties of distributing supplies, of which there had been an embarrassing accumulation in South Africa. The orders of the government in behalf of the troops had been compiled with. The officials in South Africa that the hospital beds in excess of demand. Mr. Burdett-Coutts replied, contending that a single day's trains on the railroad to Bloemfontein would have saved the situation, but he claimed the interests of the sick and wounded were postponed for interests which were

this evening and immediately fell into the hands of an interviewer.

"It has been reported, Mr. Towns, that you have stated your willingness to withdraw from the Populist ticket should you not be nominated at Kancas City," said the reporter.

"I have not discussed that proposition at all. It will be time enough to do so then, if the supposed contingency arises. My name will be presented to the Democratic convention and strength of which I already am as-

with respect to them if he fully sympathiaes with the spirit of the Chicago platform.

"All the issues are only specific forms of the great general question whether the government shall be changed from a government of, for and by the people, into a government for and by the people, into a government for and by the few. The principal phases in which this contest is presented and described is the money question, the trust question and the question of imperialism. I have no hesitancy in saying that in my judgment, the most important one of these at the present moment, and the one destined to overshadow all others in the discussion of the campaign, is the question of imperialism. The other questions relate to the choice of policy for the republic; this question is to determine whether we are to continue to have a government at all."

"Mr. Towne, have you any objection to stating what you regard as the strongest reason why you should be nominated in Kanaas City?"

"Well," said Mr. Towne, "of course, reasons of that character seem very numerous and conclusive to me. One strong consideration in my judgment is this: In order to win this election two things must be done. We must put together the forces which in 1894 allied themselves against the Republican party, and we must go into the camp of the opposition with a large mumber of voters. Nobody, I think, will claim that any Democrat who voted for Mr. Bryan before, will vote against him now on my account. Certainly no constituent of the Sloux Falls convention will oppose him because I am on the ticket, and, of course, no Silver Republican would vote against Bryan and Towne."

BREEZE FROM WILLIAMS.

BREEZE FROM WILLIAMS.

[A. P. NIGHT REPORT.]

KANSAS CITY, June 22.—George Fred Williams, member of the National Committee and delegate to the Democratic National Convention from Massachusetts, arrived today. Williams has been among those mentioned as a possible Vice-Presidential candidate, but he says that his having pronounced views and not being afraid to express them makes R unpossible for him to be considered in this connection. He is by far the most breesy and unreserved man that has yet appeared here, and he talks on every phase of the situation without, however, committing himself or the

indicate his entire disapproval of that gentleman.

"What is Hill coming here for?" he asked, and answered the query: "For the sole and answered the query: "For the sole and avowed purpose of trying to secure a modification of the platform of 1898. He ought to be here in sackcloth and ashes, instead of trying to tell us what we should do. "New York, as well as Hill, remained silent in the Chicago convention after the majority had declared its will on the platform. Now he comes here to say: 'I'l help you, if you do as I say,' If we, win, he will say: 'I help you,' If we lose, he will say: 'I told you what to do, and you see the result.' I don't like that attitude. Croker and Murphy come here in a different spirit, willing to take the platform that is made and abide by the result. It is likely that Hill will not be so prominent when Croker and Murphy take charge."

laration for the ratio of 16 to 1 in the platform. He says that there must be no deviation from that declaration. He turned his attention to Grover Cleveland, whom he denounced for throwing the weight of the Democratic administration against the Democratic nominees, four years ago.

"To make concessions now," he said, "would mean that Cleveland was right and the greatest American in the Democratic party. I do not believe this convention will do it, and when the delegates arrive it will be found that the movement is not popular. The men behind this movement are those who want to place the Democratic party and Mr. Bryan in a vaciliating position, like the present administration. They want to place Bryan on a par with McKinley, and I say the Kansas City convention will not do anything of that kind."

The most elaborate decorations for State headquarters that has been seen at any convention are being fitted up for Kansas. The State has secured a very large building on Baltimore averuse, and the whole floor is being gorgeously decorated with bunting, flags, etc. There are many pictures of Col. The idea that Kempfi was sent to Asia on account of special fitness was demolished at the time he went. His orders were simply the result of an effort in the Navy Department to induce him to go on the retired list voluntarily, and make a vacancy for promotions all along the line. Admiral Remey was chosen for senior command in Asia on account of his special fitness.

"OPEN DOOR" JUST TO ALL

Strauss Says Hay's Policy Will Insure Peace.

Thinks Secretary Has Achieved a Far Reaching Success.

[A. P. DAY REPORT.]

NEW YORK, June 28.—Oscar Strauss, United States Minister to Turkey, in an interview says:

"Secretary Hay achieved a farreaching diplomatic success when he arranged for the 'open door' in China by international agreement, and I think along this line must diplomacy in China adjust itself. At the same time it will probably be necessary that roads leading through the 'open door' shall extend throughout the Chinese empire. China is too immense a country, with its teeming population, to be diverted from its traditions, running back thousands of years. It cannot be Europeanized, nor Christianized; one might as well think of converting the great ocean into a fresh-water lake.

"As the interests of the European nations and of the United States in China are entirely commercial, it will be absurd to think of dividing it, even if that would be possible, for division of a country with a population so alien to western ideas as isChina, would destroy the life and activity that is left therein, and would paralyze its industries and destroy its commerce.

"Looking at the future of China from every aspect from the conflicting interests of European nations and the United States, the only division practical is to make no division, but help China to develop along its own best lines, while protecting it against intruders and making the 'open door' apermanent institution by extending through the empire the rights that appertain to the treaty ports.

"Joint protectorates have always been failures and a protectorate by one of the nations concerned is out of the question. The problem is not that of India, but of Turkey magnified.

"You ask, "Will this satisfy Russia," yet she accepted it as an alternative. The disagreement of other nations is Russia's opportunity, her diplomacy is able, wily and deep and must never be judged by surface indications.

"The 'open-door' policy laid out by Secretary Hay, I regard in the nature of an international Monroe doctrine as applied to China, and will, if followed, not only keep us out of war, but wi Secretary Hay, I regard in the natural of an international Monroe doctrias applied to China, and will, if followed, not only keep us out of whom the second of the second

MISSING LINKS OF RELIEF

Gravity of Situation Exaggerated. American Promptness Praised.

(A. P. DAY REPORT.)

NEW YORK, June 29.—A dispatch to the Tribune from London says the missing links in the chain of relief in China are recovered one by one. The only remaining missing link is the body of foreign ministers and refugees in Peking, and there seems little reason to doubt that they are safe, whether in the capital or on the way to the coast.

There are many rumors of massacres of Christian converts and foreign merchants, but these simply prove that there is a state of childish panic in the seaboard towns, and that every wild story of outrage is believed by itching ears. The dispatches received by mercantile houses from Shanghai are reassuring. The gravity of the situation has evidently been exaggerated in the last fortnight.

SAN FRANCISCO ACTIVITY.

Dispatch of Troops Causes a Stir in Military Circles.

Departure of the Transport Grant Delayed by Gen. Chaffee.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 29.—There is more excitement and activity in military circles here than there has been for many preceding months. The discatching of the Sixth Cavalry for what may prove to be a most thrilling scene of action is attended by all sorts of guesses and queries as to the outcome of the present crisis in China. The regiment will sail on the transport Grant and will go on board Sunday morning.

Grant and will go on board Sunday morning.

The transport is scheduled to sail at noon on that day, but will probably be delayed several days awaiting the arrival of Gen. Chaffee, who cannot arrive here before Sunday evening. The transport will carry a detachment of 300 recruits to Manila. The Leelanaw and Conemaugh have begun loading. They will carry 514 horses. The pack mules of the Sixth Cavalry will go from Portland.

MAKE-UP OF THE FORCE.

[A. P. DAY REPORT.]

SAN FRANCISCO. June 29.—The transport Grant, which will sail Sunday for Nagasaki and China, it is said to Che Foo or Taku, will carry 900 men of the Sixth Cavalry, which, in addition to a hospital corps, made up at the Presidio, 300 recruits and 200 marines will constitute the force going to China. The Ninth Infantry and a signal corps from Manila and the marines already in China will complete Gen. Chaffee's forces, making 6000 to 8000 in all.

Three surgeons will accompany the hospital corps. Acting Assistant Surgeon John T. Halsell will have charge of the medical department on the transport.

[A.P. DAY REPORT.]

SAN FRANCISCO, June 29.—One matter that enters as an important factor into the arrangement is the agreement of the Santa Fé to keep out of the Los Angeles business. Although it has a line between here and Los Angeles, by means of which it could compete for a share of the large and profitable passenger business between the two points, it will place no tickets on sale and will run no trains from here to the southern hetropolis. The Santa Fé officials explain this by pointing out that their line is 100 miles longer from San Francisco to Los Angeles than that of the Southern Pacific.

On June 18, A. G. Lucas, a watchman for the Alaska Commercial Company, while guarding some land for the company, was accosted by J. Lyons, another claimant. The men became involved in an altercation, and Lucas shot Lyons, the bullet taking effect in the man's stomach. Lyons was also armed, and fired five shots at Lucas, all taking effect. Lucas died instantly. Lyons's wound was fatal and he died the following day.

Lyons's wound was fatal and be died the following day.

The other shooting scrape occurred in a saloon. A stranger in Nome, who had arrived June 20, got into a fight on the same day and was shot and instantly killed. The trouble was the result of a gambling dispute. The name of the murdered man had not been learned when the Elider left.

Restaurants are doing well, a square meal costing 34, while ham and eggs are worth \$1.50. Everything is bustle at noon, and the activity at Dewsonduring the height of the Klondike excitament is surpassed.

WHOLESALE CLAIM-JUMPING.

[A. P. DAY REPORT.]

SAN FRANCISCO, June 18.—The steamer Zealandia arrived here today, eight days from Cape Nome. The Zealandia brings word that smallpox has broken out on board the steamers sants Ana and Ohlo and those vessels have been placed in quarantine at Egg

Dawson. Among the passengers on the Ai Kl is Lieut. J. S. Herron of the Eighth United States Cavalry, who a year ago started from Cook Inlet with a small command and crossed a hitherto unpenetrated country, leading for hundreds of miles over mountains, valleys and plains to the mouth of the Tanana. The expedition was deserted by the Indian guides and for some months fears were entertained for the safety of the party, but on December 11 they reached the mouth of the Tanana, where orders were received to remain until spring.

The object of the expedition was to ascertain the feasibility of a route through Alaska and to obtain information as to minerals, timbers and data of that section of Alaska between Cook Inlet and the Yukon River. For nearly a year the party was without news from the outside world.

Col. E. D. Wiggin, land commissioner at Rampart, is also among the passengers. He says the camp has proved itself far better this winter than ever before, and the creeks heretofore considered worthless have turned out to be the big gold producers. He estimates the clean-up at \$2,000,000. Rampart was deserted in the early part of last winter, only 400 or 500 people who were not rich enough to go to Nome, remaining. He says Rampart bids fair to rival the Kiondike as a gold producer.

COLLEGE SOCIETIES. YALE'S PRESIDENT NOT IN PAVOI OF THEM.

(BY DIRECT WIRE TO THE TIMES.)

NEW HAVEN (Ct.,) June 29.—[Exclusive Dispatch.] In his first annual report, which President Hadley submitted today, a strong plea is made for the restoration of the democratic spirit which has characterized Yale in the past, and which, he claims, is fast being killed by the influence of the college secret-society system. This influence, he said, was caused by the growth of the classes and the inability of secret societies to absorb all eligible members of the various classes.

ability of secret societies to absorb all eligible members of the various classes.

When barely one-sixth of a class is elected to the coveted membership in one of the societies, the result is bad for the rest of the students, and for the college. President Hadley says: "It tends to set a majority of the classes in an attitude of antsgonism to the minority, who, in the interests of the university, should have been their leaders, instead of their antagonists. The most concrete evidence of the evil is seen in the election of non-society men to important offices in the gift of the class, not because they were the best men for the offices in question, but because they were not members of sophomore societies."

Under these circumstances, strong pressure was brought to bear upon the faculty for the abolition of these organizations, and a petition to that effect was presented by nearly all non-society men in the senior class. The president thought it best to leave the control of the societies for the moment in the hands of the upper-class men, and to use radical measures only as a last resort.

STOCKTON, June 20.—After quarreling with her husband, Mrs. William Fitzgerald, or Lantier, as she is better known, jumped from the wharf into Stockton channel this morning, at 17:20 o'clock. RYAN'S EASY VICTORY.

OUTPOINTS "YOUNG" MAHONEY.

(A. P. NIGHT REPORT.)

CHICAGO, June 29.—Tommy Ryan
easily gained the verdict over "Young"
Mahoney of Philadelphia, before the
Fort Dearborn Athletic Club tonight,
after six rounds of rather slow work.
Ryan, who was in splendid condition,
apparently completely outclassed. Ryan, who was in splendid condition, apparently completely outclassed the Philadelphia man, whose work, though clever, looked amateurish in front of Ryan. Ryan evidently did not try for a knockout, but contented himself with tieling Mahoney in knots and outpointing him.

The crowd showed its disapproval by hooting the men at times. Mahoney weighed about 146 pounds, and Ryan in the neighborhood of 150.

WORK BEGUN ON CRUISER. SIX VESSELS TO BE SHEATHED AND COPPERED.

PHILADELPHIA, June 29.—Work on the construction of the sheathed protected cruiser Denver has begun. Ninety per cent, of the material to be used in the cruiser is already directed. The six cruisers of the Denver class will be seventeen-knot boats, and their chief peculiarity is that they will be sheathed with yellow pine and coppered. The advantage of this construction is that the vessels will not have to be docked so often.

The battleship Alabama, approaching completion in Cramps' yards, will not be ready to start on her trial trip before August 1. All of her armor is now in the yard. The large guns are still to be put in place, and until this is done the turret tops cannot be completed.

Officers who will be assigned to the Alabama are anxious to have her completed, in view of the possibility of stirring times shead in China.

FRIDAY MORNING CLUB.

With brief but impressive exercises, the Friday Morning Club yesterday installed its new board and gave expression to the grateful appreciation felt toward the retiring officers.

The club is particularly proud of the record of its leaders, but never has it had a president more generally honored for executive ability and for tact and graciousness in the chair than Mrs. Joseph Sartori. To her enthusiasm and untiring labor have been due many progressive movements during the three successive terms of her leadership, notably the erection of the new clubhouse; and it was perhaps more especially in commemoration of her work in this direction, although also in token of the universal affection and honor with which she is regarded, that the members of the club took advantage of the occasion of her retirement to present to her a sunburst of diamonds and pearls. Acting in behalf of the club, Mrs. Roy Jones tendered the jewels, with a few words expressing the feeling that prompted the gift and accompanied it.

The ceremony of installing the new officers of the club was the second important feature of the morning, each member of the board being called to the platform, in turn, and presented to the members assembled. The speech of the entering president, Mrs. Shelley Tolhurst, abounded in witty turns and was received with much applause. The report of the secretary, Mrs. Morris Cohn, showed that the club now has 405 regular and fifteen honorary members. Number admitted since July 1, 1899, 104; Asignations, 7; dropped, 6; died, 2. The report of the treasurer, Mrs. E. G. Smead, showed an income of \$2259.84, during the year, and an expenditure of \$3163.64.

The business meeting of the, club was followed by a board luncheon, at which the members of the club are as follows: President, Mrs. Shelley Tolhurst; abounded in fifteen honorary members, Number admitted and lighted those of their successors. Punch was served in the receptionroom to all members of the club.

The new officers of the club are as follows: domestic.

beautiful, as were the summer gowns of the club women, so that the club-house, at the height of the festivities, presented a strong resemblance to the garden of Mistress Mary, quite contrary, as described by one of our house-hold poetuses. None but members of the club were present, certain of these being detailed to serve the tables. The club president, Mrs. C. N. Flint, with the vice-presidents and the toastrinstress, occupied the table at the head of the hall. A dainty and elaborate luncheon was served. The treasurer's report, which was introduced as a final course, was regarded on an especially successful dessert, as it showed an extremely prosperous condition of the club finances. At the close of the report Mrs. Flint volced the club's appreciation of the work of the treasurer, Mrs. T. Knight, in a few pleosant words, which were received with appliance.

Mrs. T. T. Knight, in a few pleasant words, which were received with applause.

Communications were read from the board of directors of the Civic League, thanking the club for its beautiful and inspiring work in the decorations of the Amelia-street school, and from Mrs. Lewis, the new president of the club, who is absent in the East. Mrs. Flint also drew the attention of the club to a handsome set of plates presented by Mrs. William A. Phelps. The toast-mistress, Mrz. A. L. Danskin, who is also the second vice-president of the club, was then introduced. She said:

"This is club day. On all other ocasions on which we have gathered here we have had many invited guests, but today we are a household of our own. We may be pardoned, I am sure, if on this occasion we digress from the usual toast subjects and take up such as are of special interest to the club. The success of all undertakings depends much upon the leaders chosen. The Ebell has been particularly fortunate in its leaders, and at no time more so then during the last two years. I will call upon our president of that period to respond to the toast. "Leaders."

In replying, Mrs. Flint said in particular, and a particular in particular, and a particular in partic

In replying, Mrs. Flint said in part:
"A trinity of homely traits underlies all success—purpose, judgment, conscience. It is the harmonious development of these which gives the perfect character in man or woman. success which they have achieved bears witness to it."

The next toast announced by the toastmistress was "Corner-stones;" taken from the Bible verse, "Let your daughters be as corner-stones," it was responded to by Mrs. G. Aubrey Davidson, who said, in part:

"At the graduation exercises of this year it has been the custom to congratulate the graduates on their entrance into life at the beginning of a new century, a period so replete with opportunity and with responsibility. We also, as club women, may congratuse tours elves upon the opportunities before selves upon the opportunities before the said. As the women are, so the world is. Without the power of legislation we may, by influence, effect much, and if, instead of using the influence we have to remedy the evil that we see around us, we tolerate it, we make ourselves in large measure responsible for it. By the right use of our influence we may become as corner-stones in the temple of humanity."

Following Mrs. Davidson, Miss Everyon Hamburger responded to the toast "Service." Miss Hamburger, quoting the motto of the club, "Ich dien," Fad eloquent tribute to its splendid exemplification in the work of the club president, and sketched the power of women in the realization of the motto. "In the hands of women," she said. "les the making or the undoing of the future centuries."

Called upon to respond to the toast,

Two weeks ago, when I attended the review of books. Mrs. Flint remarked, casually, that she wanted me to respond to this toast. I suppose no farcasm was intended. She also said she would see me later about it. I have been playing the listener for two weeks, and as I heard nothing further, I came down here today feeling in very good condition, indeed, but was met at the door with the announcement that I was expected to speak, whether or no. I am, therefore, as to my speech, very much in the condition of the little girl whom I once asked whether she could count. Oh, yes, I can count, the said, but when I gets to 'leven I loose my bref.' I congratulate the club on its excellence in the line of l'attning. You have listened with so much of tolerance during the last year to opioiona diametrically opposed to your own. Yet I want to voice a word of warning. Away back in the centuries, a wily old enemy of our race got one of our ancestresses to listen to him, and from that listenius has come all the woes of the ages. Therefore, ladies, be carrful what you listen fo."

The important the st. "Our President." was responded to by Mrs. Edgar Swayne, who shoke in warm appreciation of Mrs. Flint' work for the advancement of who interests. Mrs. Stilson of the Ruskin Club was then called on, and save some account of the blennial convention at Milwander, from which she has just returned, The luncheon closed with the Chautaudia salute to the members who had served the tables.

Big Benjamin Snell Hanged at Washington.

Murdered a Youn; Girl With Whom He Was Infatuated.

WASHINGTON, June 22.—Benjamin Hill Snell, 44 years old, formerly a clerk in the Pension Office, was hanged at the district jail at noon today, for the murder of thirteen-year-old Lizzie Wiesenberger, with whom he was infatuated. Snell was the largest man ever executed here. When received at the jail, August 7 last, he weighed 28 pounds and measured 6 feet, 6 inches in height. Today he weighed 237 pounds. Notwithstanding that the drop was considerably lessened, the rope nearly severed his head from his body. Death was instantaneous.

Increase of Disease Causes Prohibitive Measures.

No Extra Session of Territorial Legislature - Sydney Plague.

(BY DIRECT WIRE TO THE TIMES.)

HONOLULU. June 22.—(Wired from San Francisco, June 29. Exclusive Dispatch.) The commissioners of education have adopted a resolution prohibiting anyone from teaching in the public schools who is suffering from tuberculosis or other contagious or infectious disease. It also prohibits pupils afflicted with such diseases from attending the public schools.

This action is due to great increase of consumption in the islands, which amounts to fully 100 per cent. during the last year. One cause of the increase has been the influx of consumptives who have sought Honolulu because of its mild climate. Many of these have been teachers who have secured positions in the public schools.

PLAGUE IN AUSTRALIA.

(A.P. NIGHT REPORT.)

SAN FRANCISCO, June 29. — The steamer Moana arrived from Australian ports via Honolulu today, bringing dispatches to the Associated Presa from Honolulu under date of June 22. The indications at that time were that no special session of the Territorial Legislature would be held. The regular esson of the Legislature in February.

Reports from Sydney show that the plague situation in that city is improving. The daily average has decreased to less than two cases a day. Melbourne had a new case on the 4th of the month. The total number of cases at Sydney up to June 6 was 272, of which ninety-six had been fatal. During the week previous to the departure of the steamer there were seventeen new cases admitted to the hospital—the deaths for the same period numbering three, which is the lowest rote since March. There were eightysix patients in the hospital when the citeamer left, which is much less than the recent average.

During the past three weeks, the authorities have been offering to inoculate people with serum, but the people do not take to it as those of Honolulu. Only about two thousand persons applied for treatment. During May, 19,448 rats were killed in Sydney, making a total of 24,158 rats killed since April 13. The cleaning-up of the city still continues. Twelve hundred scavengers were at work under government auspices.

A Japanese newspaper announces that Dr. Kitasato, discoverer of the bacillus of bubonic plague, has invented a new preventive serum.

Mr. Bryan's party was given several opportunities to work with the delicate financial system of the United States. Each occasion brought disaster. The American citizen remembers this; and no alluring promises will suffice to shake his abiding distrust of a party which has failed so utterly at every attempt.

Mr. White would make a most excellent Governor, independent, honest, intelligent, but it is hardly more likely that he would accept the Governorship than that he would have accepted the Vice-Presidency. The duties of his present office are less exacting and more suited to his tastes.

The clause in the Republican platform advocating good roads is one which ought not to be overlooked or furgotten, although it does not represent a political issue. The United States is lamentably behind most of the countries of Europe in the character of its highways. The saving that would be effected in the wear and tear on vehicles and the animals which haul them would, in a few years, be sufficient to convert our main thoroughfares into excellent roads.

The Syracuse Post-Standard notes a fact which will have much force in the coming campaign—when it says: "It is doubtless within the truth to state that no national convention ever held has had the good fortune in its final results to wholly please as many people, and displease as few people, as has the convention at Philadelphia." This practically unanimous approval of the ticket by Republicans everywhere and of all factions assures a support for it which

EDUCATIONAL ADDRESS.
Prof. Clarence L. Cory, of the electrical engineering department of the
University of California, was introduced. He spoke on "The Education of
Today." Among other things, he said:
"The interest of the State University
in the Los Angeles High School, and
your interest in Berkeley, are reciprocal. California has many things of
which to be proud, and among them
the knowledge that she possesses one
of the best educational systems in the
United States. A noble ideal is nowhere better sot before a youth than
in a good school.
"Education has always had only one
object. The sole difference between the
education of yesterday and that of
today is in the method and not in the
result sought for. Not long ago the
professions of medicing, theelogy and
iaw embraced almost all men, of culture. The field is not so limited today. The tendency of education of the
present is not to acquire a certain
amount of information—it is to make
people think right. It: is wery much
better to train the individual to reason his way out of dissouties. than
to teach him a set manner. BRISTOW'S INFORMAL REPORT. PRESENTATION OF CLASS.

Principal W. H. Housh presented the class. He spoke to the members as follows: "You are about to leave the High School. By loyalty to school, by obedience to authority, by sincere scholarship, you have won our love. You have been tested in every possible way known to your teachers. We are sure that you deserve the honor that is about to be conferred upon you. We know that you will become loyal citizens."

The diplomas were conferred by Charles Cassat Davis, president of the Board of Education. Mr. Davis spoke of the recent unpleasant happening at the school, and paid a glowing tribute to the conduct of the graduates in the premises. He said:

"The ideal one principle upon which this nation of ours is founded is the principle of individual liberty under lawful restraint. When, more than two centuries ago, the Fligrims came to our shores they brought a sentiment for liberty. They suffered trials to preserve their individual characters. It is worthy of comment that among their first acts was the founding of Harvard College. They realized that for democracy, education is a necessity.

"Our schools teach self-restraint, self-respect and self-government. We are proud of our High School. A few days ago some miscreants entered the building and descerated its floors and walls. Every law-shiding citisen abhors such conduct. I while not allude to the unpleasant affair, but for the fact that the minute that set was known to this class of 1900, they rose in indignant protest and rebuked such vandalism by passing resolutions and giving up voluntarily their commencement festivities.

"When this class found out this disgrace, they declared they would not of the long provramme was exemplary.

GORGEOUS DECORATIONS.

The hall was gorgeously decorated for the occasion. American flaws and the national colors in profusion were displayed everywhere. The flowers were too numerous and beautiful to describe. A wide shelf built across the front of the stage was crowded with the baskets and made-up pleces. At each side of the platform a pyramid of shelves had been erected, and the fragrant blossoms were piled to the tops. Miss F. V. Harrow and B. F. Wright of the High School faculty were in charge of the decorations.

The graduates were seated on six tiers of chairs placed on a sloping platform running the full width of the large stage. In the front row of seats were the embers of the High School faculty, to the left, and the speakers and guests of hoper at the right.

It was \$:30 o'clock when the curtain was drawn. The programme was opened with musical selections by the First Congregational Church Orchestra, as follows: "March Song from the Deathless Army" (Troters.) and overture from "Poet and Peasant" (Suppe.)

untarily their commencement testites.

"When this class found out this disgrace, they declared they would not have their exercises until all impuration of blame was removed. When we behold such a willing sacrifice we recognize a noble act. This whole class has been imbued with the highest respect for education. It also possesses the innate elements of good citizenship—regard for law."

DIPLOMAS AWARDED.

DIPLOMAS AWARDED.

Then, amid storms of applause, the graduates marched forward and received their diplomas. Popular favorites, such as heroes of the football field and winners of special school honors, were greeted with the school yell. Most of the graduates are from the scientific course. The following-named completed that course in February, 1900: Francis William Cardwell. Marion Ella Lewis, Elon Kanagy, Olin Wellborn, Jr., Maude Mabel Filbert, Clark Flickner Miller, Mary Margaret Quinn, Evanseline E, C. Flood, Julia Hampton, Witman, Truman Frakine Wig.

MUSIC AND SPEECH. MUSIC AND SPEECH.

Congratulations and good wishes were extended on behalf of the Board were extended on behalf of the Board of Education by C. C. Davis.

Harry Baxter, a member of the class, flutist, and F. A. Olds, cornetist, with orchestral accompaniment, played "Serenade" (Titi.)

It was an inspiring scene as the graduates and audience rose and sang "America." FLORAL GIFTS.

FLORAL GIFTS.

It has always been customary for the Junior A class to distribute the flowers to the graduates. This year they waived their rights to the honor. The Senior B class gave up its class play, as a sign of its disapproval of the recent vandalism. This was a great sacrifice, as the young ladies had prepared special gowps for the play, and all the class members had consumed much time in rehearsals. Last evening, through the countray of the Junior A's, the Senior B class in the regalia prepared for the play marched onto the stage and distributed the bouquets. It was a charming picture. The graduating girls were all in white. The flower girls were gowns of lavender. The contrasting colors, the fair faces, and the pretty posies made the stage a veritable bower of beauty.

The class colors were freely displayed. The winter class of 1900, and the played.

#### The Playhouses.

MOROSCO'S BURBANK THEATER.
"The Children of the Ghetto," upon its
first production in New York, was a
decided failure. With more than ordinary unanimity the dramatic critics
of the metropolic condemned the play,
and the general public, with almost
equal unanimity indorsed the views of
the critics and withheld its patronage.
The play was withdrawn from the
stage in New York. But Israel Zangwill, its author, was not satisfied with
the New York verdict of disapproval.
He chaimed that the critics of the
metropolis were prejudiced against him
and his production, and that they had
entered into a conspiracy to bring
about the failure of the play. He took
the piece over to London, and it is
claimed that it met with considerable
success in that great city, where the
scens is laid.

"The New Frawley Company" produced "The Children of the Ghetto"
at the Burbank Theater last evening,
before an audience which filled all the
available seating aspacity of the
house. Making due allowances for the
unavoidable shortcomings of a first
production, the reasons for the failure
of this play are perfectly obvious to
the analytical observer. It lacks most
of the essential elements of popularity
and of longevity. It is deficient in
"contemporaneous human interest."
Its situations are strained, unnatural,
and often in the nature of anticlimaxes. Its pathos—with some exceptions—is meretricious, and its attempts at wit are dull, purposeless, and
stupid. The first two acts are talky,
commonplace, and almost wholly devoid of interest. There is more of action in the third and fourth acts, and
at times there are touches of genuine
feeling. This is notably true in the
scene where Hannah confesses to Reb
Shemuel her love for David Brandon.
The play is rescued from utter stupidity by the clever work of the leadtion in the third and fourth acts, and
at times there are touches of genuine
feeling. This is notably true in the
scene where Hannah confesses to Reb
Shemuel her love for David Brandon.
The play is rescued from utter stu

bilities.

Rosabel Morrison—who is the daughter of Lewis Morrison, the prince of Mephistos—is altogether sweet and charming in the role of Hannah Jacobs, daughter of Reb Shemuel. Miss Morrison's impersonation is all that could be desired. It furnishes the one touch of nature which imparts a fiesh-and-blood tint to the performance as a whole.

of nature which imparts a nesh-anublood tint to the performance as a
whole.

The work of Henry Roberts as David
Brandon is much to be commended for
grace, virility, and earnestness. The
part of Meichisedek Pinchus, as presented by Wallace Shaw, is infinitely
silly and uninteresting. This is not
Mr. Shaw's fault, but Zangwill's. There
are other characters without number
in this freakish play, but they have
little or nothing to do that is worth
seeing or hearing. They cumber the
cast and the stage without rational
purpose, and most of them, if left out
altogether, "never would be missed."

This play will be presented at a
matinee to be given this afternoon, and
will seceive its final presentation at the
Burbank by Mr. Frawley's "new company" tonight.

Woolley struck on his right side on the hard pavement at the bottom of the shaft, sustaining a fracture of the hip. He was attended by Police Surson Hagan, at the Receiving Hospital, and afterward removed to the County Hospital, where he was resting commaratively easy last night. It is feared hat he has sustained internal invies from which, on account of his vanced age, he may not recover. It. Woolley has a son in Monrovis, another relative in this city, at the er of Central avenue and Twenty-th street, and they were notified a serious condition.

PERSONAL. not much the better. They wrestled through six rounds and as neither was in condition, the "fight" was but a brutal exhibition of rough and tumble fighting such as any two newsboys might have put up on the streets. Place was given the decision, although the contest could not be called a match. Policemen who attended the mill, asserted that unless such performances were stopped they would take it upon themselves to raid such places even without orders. Wagner was no more in condition to enter a ring than was a mere child, and the wonder is that he was not seriously injured. The "club" that gave the fight has been the cause of more trouble to the police than any other organization in the city.

lar nature at 3 o'clock yesterday morning.

The first effort of the prowler was at the residence of D. Desmond, No. 877 South Hill street. In raising a window, he created so much commotion that the household was awakened and he fled. His next attack was at the residence of G. B. Tibbot, No. 1028 South Hill street. Here he raised a bedroom window and got partly in, but his clumsiness aroused Mr. Tibbot, who rose up in bed just in time to catch a glimpse of the head and shoulders of the would-be thief as they hastily disappeared from the window.

Plaint from Nutmeg State.

City officials in the discharge of their
dules often receive very funny communications from people who desire
some favor. The City Tax Collector's
office received yesterday from a resident of the Nutmeg State a letter that

"We want the question definitely settled now. We would much prefer to have a final disposition made of the matter at this time, so we can know where we are at. I believe that the mandate of the court requires that the rates shall be fixed before July I. Last Tebrusary we told you that you were making an improper rate, but here it is along in the middle of the summer and no water arrangement has been made. We want the question settled right away."

During this quickly-spoken tirade, the faces of the Councilmen depicted a good deal of surprise. When the lawyer finished, President Silver said:

"I understand from the remarks of the gențieman that his company is grepared to accept the present schedule of rates for the coming fiscal year. The committee has indicated that it would recommend this schedule unless there was a further examination, and the gentieman seems to desire that the matter be settled at once."

Then Mr. Toll said: "In view of the present belligerent attitude of the Highland Water Company, I deem it somewhat dangerous for this Council to fix the rates, unless they are sure it is on an equitable basis. This company may take the matter into the courts and cause no end of future complications. The gentieman who has the honor of representing the water company before this body has referred to sundry times when he was treated to a wave of the

here, you said that if we

wanted a higher rate, we couldn't have it? Other members of this body said the same fixing rates for the Highland for Company on the same schedule has prevalled during the current depayer. A spirited debate between tak P. Flint, Esq., and Councilman enlivened proceedings on the floor the Council chamber.

The Board of Public Works yesterday rains briefly considered the bids thave been made for a lease of Sun-Park for oil development purposes, declaion was reached, and the matwas taken under advisement, he will of the late Frederick M.

The cold damage suit of R. Hagan that Joseph Burkhard and W. F. wits for \$2000 was dismissed by the York yesterday for want of secution.

That may be true," said Mr. Toll, "but this committee has got to have information before it can decide whether the company is right in asking for a 60-per-cent. raise, or the people are right in their contention. I don't want the committee to be put in the light of taking a hasty action unless the company is willing to accept the terms. If counse for the water twe the company is willing to accept the terms. If counse for the water that we hoped to get at the first of the year," said Mr. Flint, "but this much is sure. I want that rate settled and settl

nans, the general superintendent of the company.

It is said that the readiness of the company to accept the schedule was due to an impending sale of the property and reluctance at having an examination of the property made by the City Engineer. On the part of the Council, the report for delay was a clever move designed to get at the actual value of the property, in view of the proposed municipal ownership of the water plants. The ordinance, as passed, was immediately signed by the Mayor.

City officials in the discharge of their duties often receive very funny com-munications from people who desire some favor. The City Tax Collector's office received yesterday from a resi-dent of the Nutmeg State a letter that

dent of the Nutmeg State a letter that is a gem. After reciting that the State and county taxes on a certain lot, amounting to \$4 cents, had been paid in 1899, and that it is a matter of surprise to find that the lot has been assessed to another man, the letter concludes:

"At about the February 8, sold my bouse on said lot for \$10 to a Contractor who lived in University in a street running from east to west, am not sure of the street nor the man. Never gave away lot. This Smith fraudulent. Could you send words to Smith to show you the tax receipt and retain it, then if you would be so kind I would pay your trouble. The Recorder of Deeds can perhaps give you some information even a Lawyer might give you some advice. May God prosper you in your undertaking."

Many Warrants Passed.

The special session of the City Council, held yesterday afternoon, was the last meeting of the fiscal year, and an exceptionally large number of demands were passed. Almost the entire session was punctuated with the "thump, thump" of stamps as the members of the Finance Committee affixed their signatures to the hundreds of demands. About \$29,000 was represented by the warrants passed at the special session yesterday. This sum included the following pay rolls: Police department, \$565.74; fire department, \$702.35; park department, \$2681.75; street department, \$7103.

Poll Tax Held Out.

With reference to the notice of garnishment served on the City Treasurer yesterday by the County Assessor the City Attorney yesterday furnished Treasurer Hartwell with an opinion in Treasurer Hartwell with an opinion in which he advises the Treasurer to hold out the \$2 for his own protection. The City Attorney does not believe that the wages of the city employés can be garnisheed for the poll tax, but inasmuch as a test case is to be brought in the courts to decide the question, he advises that the money be held temporarily. In case it is decided that the notice of garnishment has been illegally served the Treasurer will then pay the money to the city employés, while if the order of the court upholds the action of the County Assessor, the money will be turned over to him. By the notice, 132 municipal employés are affected, and it is apparent that they

Hagan thought he wasn't treated right by Burkhard and Lokowitz. Prior

Hagan thought he wasn't treated right by Burkhard and Lokowitz. Prior to January 20, 1896, he was living in San Francisco, where he was in business. About that time he says he was approached by the defendants with a proposition that he should accept emoloyment from them at \$100 a month for three years, and give his services to work up the business of the association as its manager. In addition to his regular salary, he was to be paid all expenses incurred by him while soliciting trade, and was to be given, as an additional remuneration for his twenty years of experience and skill, one-half of the shares of the association's stock.

After much negotiation, Hagan finally accepted defendants' alleged terms, left his happy home in San Francisco, and on January 20, 1896, entered upon his duties as manager of the Southern California Beer Bottling Association. He fulfilled the conditions of this contract until March 2, 1896, when, he says, he was discharged, and defendants refused further to employ him, notwithstanding the three-year clause in their contract.

All he ever got for the services he did perform, he says, was \$70 for expenses and \$25 on account of salary under the agreement, but no more and no stock, all to his damage in \$5000.

The capitalization of the association was \$40,000 divided into 400 shares. To get him to give up his work in San Francisco, Hagan says, the defendants represented to him that the stock was of value, as being that of a growing and prosperous concern, whica, the complaint alleges, was nothing else than false representation. And, moreover, says Hagan, he was always handicapped during the brief period of his employment by having no funda in the association's treasury with which to carry on his work quickly and successfully. This, he says, was part of the agreement that induced nim to

mployment by maving no lines in the association's treasury with which o carry on his work quickly and successfully. This, he says, was part of he agreement that induced him to eave the north, but it was not fullish

The property comprises a part of lots

and 4 of the Legge tract, constituting a part of the company's roadway, upon which are located the roadbed and rails of a portion of its line of railroad as operated through San Diego, Orange, San Bernardino and Los Angeles counties. Inásmuch as this real property constitutes a part of plaintiff's roadway, it is contended that the same

can only be legally assessed by the State Board of Equalization.

But, on the first Monday, in March, 1899, the County Assessor assessed this property to the plaintiff company, and thereafter the Board of Supervisors levied a tax, which flas not been paid, and, in June, 1900, the Tax Collector published a delinquent list, in, which was contained a description of plaintiff's property, which will be sold at 10 o'clock a.m. on July 2, unless the delinquent taxes be paid on or prior to that date.

Action is now begun to restrain the Tax Collector from carrying out his threatened sale, on the ground that the assessment was illegal and invalid.

Property Worth Bearly a Hillion to Be Fought Over in Court.

The will of Prederick M. Mooers, the Yellow Aster mining king, who died suddenly in New York City last month, on his way to Europe, is to be contested. Charles H. Mooers, a brother of the deceased, who is mamed in the will as executor of the estate, was appointed special administrator yesterday by Judge Shaw, and this move was not opposed by the parties planning to assail the will.

Special letters were asked for the chief reason that the estate is in need of immediate care, which it would not receive if there is to be any delay in closing up affairs, on account of a contest. The value of deceased's property is put at \$180,000, it comprises furniture and personal property worth \$2500: family residence on Bonnie Brae street, \$10,000; cash deposits in banks \$3777; and 18,301 shares in the Yellow Aster Mining and Milling Company, \$155,000. THE KUNS PROPERTY. The suit begun by Mrs. Louise Kuns against Mrs. Rachel Kuns, to set aside a deed, went to trial in Judge Allen's department yesterday, and the court held that the plaintiff had no case, and would not allow the introduction of testimony. The plaintiff is the wife of Dr. Nathaniel kuns, a dentist of Santa Monica, who was unsuccessfully sued-for a divorce several months ago. The present suit was begun by his wife to restore to the community certain property alleged to have been conveyed by the doctor to his mother, to be out of reach of a judgment in a successful divorce case. Dr. Kuns answers that the property was conveyed to his mother in security of \$3000 or \$4000 advanced by her to him since his marriage.

INSANE IRISHMAN. G. Brainerd and Dr. E. C. Buell. Neylon has suffered from great religious excitement and belief in sufrits since last October. He has many lelusions about the devil, and wears a crucifix under his ear, he says, to keep the devil from butting him under that important organ of hearing.

Jessie L. Creusbaur began suit yesterday against F. A. Berlin, John D. Spruance, M. L. Wicks, Percy Wicks and W. W. Butier, asking judgment against Eerlin and Spruance for 230,-600.

On March 1 of the present year, the plaintiff, M. L. Wicks, Percy Wicks and Butier, were owners of twenty bonds of the Crystal Springs Land and Water Company, each bond worth 15000, bearing interest at 6 per cent. These bonds were held by plaintiff an equal shares, and on March 1, it is alleged, were worth 130,000. But, on that date, says the complaint. Sprinance and Berlin took and converted the bonds to their own use, to the damage of plaintiff, M. L. and Percy Wicks and Butier, in the sum of 250,-defendants, for the reason that they refused to unite with the plaintiff in the suit just begun.

NOT A VEGETABLE PEDDLER. NEBON IS ONLY A GREEN GROCER

In the Police Court yesterday, J. B. Nebon, a dealer in vegetables and groceries at No. 1620 San Fernando Nebon, a dealer in vegetables and groceries at No. 1620 San Fernando street, was found not guilty of the charge of peddling vegetables without license. Nebon is one of the few white men who supply families in Los Angeles with fresh "garden sass." That trade is monopolized almost exclusively by the Chinese gardeners. The Chinamen who peddle vegotables from door to door, must pay a city license fee of \$5 monthly. White or black men engaged in the same line of business are also amenable to the license tax. Nebon, however, denies that he comes under the category of vegetable peddlers. He claims to be merely a green grocer, who delivers goods ordered by his customers. As housewives do not always know what sort of vegetables they want, Nebon sends to their homes an assortment to select from. It happens in this wise that his delivery waxon is usually well filled with garden truck on its daily rounds, and this fact led to assumption that he was running an unlicensed vegetable wagon. Nebon had "El Hutch" for counsel and interpreter, and succeeded in convincing the court that he was not a vegetable peddler in the legal sense of the term. Nebon ascribes his prosecution to the jealousy of Chinese over his business success. POVERTY-STRICKEN PATIENT.

He denied that he intended to leave the city, déclaring that he could not get away if he tried, as he had no money and was unable to earn any. He said he would return to Oregon if he could.

The Entertainment Committee provided an excellent programme, which was rendered by W. P. Hyatt, Mr. Sullivan, Mrs. Annie Jeffries and others. The order had a larger growth in May than in any one month, and the business done from January 1 to June 1, 1900, exceeds that of the twelve months preceding. District Deputy W. J. Way, assisted by Deputies Hanna and Brown, are organizing in outside towns.

Fraternal Miscellany.

A NEW aerie of the Fraternal Eagles was instituted at Vallejo Monitay evening.

Mt. Pleasant Council, Fraternal Aid Association, at its meeting last week had a mystic social, in which a phrenologist, palmist and astrologist were the bright particular stars. Music was also furnished by an orchestra.

Not enough interest was manifested by the representatives of the fraternal orders of the city to attend the meeting to consummate a permanent organisation of a State Fraternal Congress, as was anticipated Wednesday evening, and the project has been temporarily abandoned.

ment of its contracts made therein depends purely upon the comity of those States. Having no absolute right of recognition, but depending for such recognition and enforcement of its contracts upon their assent, it follows as a matter of course that such assent may be granted upon such terms and conditions as those States may think proper to impose. They may exclude the foreign corporations entirely; they may restrict its business to particular localities, or they may exact such security for the performance of its contracts with their citizens as in their judgment will best promote the public interest. The whole matter rests in their discretion.

"It was also decided that a corporation did not have the rights of its personal members, and could not invoke that provision of section 2, Article 4 of the Constitution of the United States which gives to the citizen of each States which gives to the citizen of the Euricenth Amendment have no broader application in that respect. In Blake vs. McClung. a Virginia corporation was denied the right to participate upon terms of equality with Tennessee creditors in the distribution of the assets of a British corporation in the hands of a Tennessee court. In Orient Insurance Company vs. Daggs, the Missouri statute, fixing liability at full face of insurance policy, in case of total loss, was by the Supreme Court of the United States upheld against Connecticut Insurance Company, which contracted to pay only actual loss. "The statute of Texas, 1889, therefore, was," in the words of the Supreme Court of the United States, "a condition upon the oil company within the power of contracting, whatever its discriminations were, become conditions on the same footing as its own corporations. There is no question of the right of a State to place foreign corporations on the same footing as its own corporated to evade California a low, yet to do business in California fornia. There is no such thing in California as non-assessable stock. If the company is in debt the assessment will, if necessary, be levied by the court. There is no preferred stock, though a collateral contract may be drawn by which certain stock shall receive a dividend in preference to certain other stock of same company. "Capital stock of a company can be sold as paid up for less than its face, but if credit has been obtained by concealment of this fact courts of equity will compel the payment of enough of the unpaid stock subscription to pay such debts."

tent of His sympathy and purpose. Their very despair was an opportunity to Him to teach them deep lessons. When they first saw Him, He had passed as if He were going on. Knowing they would take Him to be a spectre and be frightened, He thus appeared to them as if leaving them, so as to lessen their fear and encourage them to calm inquiry. Thus He accommodated Himself to their weakness by speaking in the old familiar way. Their failure to recognize Him might have been due, in part, to the sullen thoughts they had been cherishing about Him, but now that voice dispels their fears, enlightens their minds with a new view of the connection between Him and their lives and restores their faith. Smith, said to be a deserter from the United States revenue cutter Ranger, now at San Diego, is locked up in the City Jail. Thursday afternoon, Smith walked into the detectives' headquarters in a state bordering on delirium tremens and asked Capt. Bradish to lock him up, stating that he was afraid that he might commit some act of violence if left at large. He was booked for lodging, given medical treatment and later released. Yesterday, Smith was again sent in. He stated that he belonged on the Ranger, but was absent on a furlough. The commander was communicated with, and the Chief of Police was requested to return him to the vessel as a deserter, for which a reward of 310 would be paid. This amount would not be sufficient to return him to the vessel in charge of an officer, and the commander was so notified. Satisfactory arrangements were probably made, as he will be escorted to San Diego today by a policeman.

RECEPTION AT NEW PARSONAGE.

AVALON (Santa Catalina Island.)
June B.—[Regular Correspondence.]
An event of interest to the churchgoers of Avalon was the house-warming of the new parsonage last evening. This congregation, which is a
union of all sects, now boasts of as
neat and pretty a little parsonage as
can be found in the land. The work
was begun last summer when Mr.
Hartley of Redlands, a Methodist
clergyman, raised a fund of \$600, the
residue of which, after paying off some
debts, was to be used in improving
the parsonage, which was a threeroom ramshackie affair. The debts
were paid and \$500 remained with
which work was begun, and the new
structure is a menument to the energy
and perseverance of the pastor, Rev.
C. W. Williams, and the building committee, A. A. Carraher, J. H. Miller,
J. D. McLean and E. J. Whitney, Most
of the work was contributed by the
members of the congregation, and the
cost was \$1800.

Hugh D. Vail Dead and Flags Flying at Half-mast.

Lompoc Woman Commits Suicide—Gap Work—Brevities.

SANTA BARBARA, June 29.—[Regular Correspondence.] Flags are at half-mast in this city as a tribute of respect to the late Hugh D. Vail, who died last night at the advanced age of 83 years. His last illness was brief and death was due to old age, rather than disease. The funeral will be held to-morrow afternoon at the family home on Chapala street, and interment will be made privately in Montecito Cemetery. Deceased is survived by a widow and two sons.

Hugh D. Vail came to Santa Barbara in 1881, from Philadelphia, where he had lived since early manhood. He became an extensive property-owner here.

in 1881, from Philadelphia, where he had lived since early manhood. He became an extensive property-owner here, and was intimately associated with every progressive movement for the city's welfare, having gratuitously compiled the only complete weather reports ever published in this section. He was well educated, devoted much time to study, and had more than a local reputation as an astronomer and meteorologist. He was a leading factor in the establishment of the city library, of which he was one of the truttees at the time of his death. Mr. Vall was born in Plainfield, N. J., and was a descendant of a family whose early members settled in New Jersey in 1716, and were closely identified with the founding of the country.

WOMAN COMMITS SUICIDE.

A message from Lompoc announces the suicide this morning of Mrs. Sheridan, Esq., of Lompoc. Mrs. Sheridan, was about seventy years of age, and lived several miles from town on a ranch, where she hanged herself in a barn. Ill health, coupled with grief over the loss of a son some time ago, is supposed to have unbalanced her mind.

Among the attractions which it is expected will be presented are horse races and bloycle races and also potato, sack, swimming and barrel races. The swimming course is to be from the float near the outer end of the pleasure wharf to the beach. A miniature representation of a warship capturing a Chinese junk is to be given on the water in the evening, and there are plenty of fireworks in prospect. LONG BEACH BREVITIES.

LONG BEACH BREVITIES.

Miss Adda Shaul, census enumerator, has completed the canvass of the city of Long Beach. Her figures show that on June 1 there were 2253 souls living within the municipality.

The Long Beach Development Company is seeking to perfect an arrangement with the City Trustees for the lighting of the beach front westward as far as Asbury during the summer. Some of the best fish catches of the season in neighboring waters have been made within the past few days. Many small ones have been taken with hook and line from the pleasure pier, and record-breaking yellowtail, barracuda and bonits have been pulled out with troiling lines from boats a few miles off shore.

HARBOR WORK BEGINS. SAN PEDRO, June 29.—[Regular Corespondence.] Work in connection with the new contract for the construction the new contract for the construction of the government breakwater commences here today. The California Construction Company, which was the lowest bidder on the building of the seawall, has about a dozen men on the ground in charge of W. A. Burdick, late of San Francisco. The first work done will be the construction of a hoarding house for the workmen near the old Point Firmin Hotel. Material for a trestle leading from the westerly where of the outer harbor out over the breakwater site is expected to arrive in the near future. The land end of the trestle is to be built a short dis-

HOTEL DEL CORONADO, June 29.

[Regular Correspondence.] A guest from the North was taught a rather expensive lesson in fishing yesterday by Capt. Dunne, who is \$11.40 the richer. The new arrival doubted the many stories about large catches of fish in Southern California waters, and offered to pay Capt. Dunne 10 cents each for all the croakers he could catch. Dunne rowed the doubting angier to the croaker bank and within a short time the man from the North had hooked 114. Then he suddenly developed a case of seasickness, made for the shore, paid the bill, and the incident was closed.

Mrs. H. H. Sherwood left for San Francisco today to participate in the golf tournament to be given by the Oakland club next week.

KERN COUNTY.

CIL AND OTHER NOTES.

BAKERSFIELD, June 28.—[Regular Correspondence.] The engineer in charge of the construction of the Southern Pacific Company's branch line in the Kern River bil fields, states that trains will be running on the spur by August 1. Owing to the absence of shipping facilities, and to the scarcity of teams, due to the fact that the horses which have been engaged in heading heretofore having been recalled to the ranches for harvest, most of the companies have shut down their pumps. Tanks are full, and there is no means of storing the product, and there will be little in the way of production until the railroad is in a position to haul the coll. It is believed that by the last of August the Kern River territory will be in a position to ship between twenty-five and thirty carrieds per day.

The Southern Pacific's Hand-clasp With the Santa Fe People.

Clarence A. Warner, who has been passenger and excursion agent for the Mt. Lowe Railroad for three years, has resigned his office to take a similar place with the Los Angeles and Pacific Railroad Company. The resignation takes place today, and tomorrow Mr. Warner takes up his new duties. Mr. Warner has seen a good many changes in the Mt. Lowe road. When he went to it three years ago it was in the hands of receivers and running behind about \$1000 a month. By putting in lower rates, in seven months the road began to make money and soon made so good a showing that Valentine Peyton and the estate of H. M. Singer of Chicago purchased it at a cost of about \$100,000. A month ago the Hellman-Huntington-de-Guine-Borel syndicate, owning the Los Angeles and Pasadena trolley lines, bought the road, paying the Peyton-Singer people \$500.000 for the property. Mr. Warner's resignation is regretted by the new owners, as it is recognised that his administration of his office was vary competent. The place will be filled by E. C. Sattley, who has been with the company as hotel manager for some OTHER CHANGES.

years.

OTHER CHANGES.

The pending change in the refrigerator car lines is probably the reason for Earnest Whitehead leaving that branch of the employ of the Santa Fe to enter the freight department in the San Francisco office. Mr. Whitehead has been in charge of the refrigerator lines of the road for many years. He is a Los Angele soy who has won rapid promotion in the railroad business. His place in the freight department will be taken by Williamson Dunn, one of the best-known railroad men of the State. Mr. Dunn came here with the Santa Fé when it first entered California. Later he went to the Southern Pacific and when the war with Spain broke out he was city freight solicitor of that road. But Mr. Dunn had served in the navy during the civil war, and thinking it his duty, he offered his services to the government. He was commissioned ensign and sent to Manila in command of the collier Brutus. Since the war was over Mr. Dunn has not been in the railroad business.

was held today, forty-two members being present or represented by proxy. August 24 was chosen as the date for holding the county convention. The apportionment to the convention will be one delegate for each remainder of five votes or over of the average votes cast in each election precinct of Riverside county offices at the last general election, provided any precinct casting a less number of votes than such remainder be entitled to one delegate.

The Riverside Republican League Club met last evening in the city courtroom to plan for the campaign. President E. S. Moulton presided and M. M. Milice was present in his official capacity as secretary. It was decided to organize a Riverside city marching club. The following committees were appointed: Finance, A. S. Milice, G. E. Bittinger and Frank Cuttle: Rooms, J. A. Simms, Oscar Ford and Charles Ecklund: Marching Club, H. T. Hays, W. B. Clancy and C. P. Hancock; Membership, C. O. Alkire, S. D. Pelton, F. A. For about 200 feet from the bluff the treatie piling will have to be set in holes drilled for that purpose in the rocky bottom. From there out the piling can probably be driven in the usual manner. Only about thirty men will be employed on the trestle, as much of the work will be done with donkey end at the quarry.
